FCC Practice Sheet

In the following configuration,

File	Contents
fixme file	`jim shoes ar also called sneekers in sum countrees`
typo file	`countrees ar  segway sneekers jim sum`
fixo file	`countries are segue  sneakers gym some`

Table 1: FCC Configuration

there are six (6) words that FCC will automatically correct. Please complete the following table:

	List of typo words	List of fixo words
0	countrees	countries
1	ar	are
2	segway	segue
3	sneekers	sneakers
4	jim	gym
5	sum	some

Table 2: Lists of Typos and Fixos

This certainly is an *odd* way of counting, isn't it?

FCC will find **jim** as a misspelled word in the fixme file because it is in the list of typo words. In particular, **jim** is found at index $\boxed{4}$ in the list of typo words. Because **gym** is found at index $\boxed{4}$ in the list of fixo words, FCC will replace **jim** with **gym** in the sentence that it generates!

For the following table, please fill in any blanks in the table. If a particular column in the table is inapplicable, please write "N/A".

Input Sentence Word	typo?	typo list index …	fixo list index …	Output Sentence Word
jim	✓	4	4	gym
shoes		N/A	N/A	shoes
ar	✓	1	1	are
also		N/A	N/A	also
called		N/A	N/A	called
sneekers	✓	3	3	sneakers
in		N/A	N/A	in
sum	✓	5	5	some
countrees	✓	0	0	countries
